RANCHO SANTA MARGARITA, CA – JULY 29, 2008 -- Orange County SandCars, LLC has moved all of its operations to a new 4000 square foot shop in Rancho Santa Margarita, CA located at 23071 Antonio Pkwy, Suite F, Rancho Santa Margarita, CA 92688. This move will support the company as it continues to grow. It is a full fabrication and repair facility with 7 operational lifts. Additionally, Orange County SandCars has completed the R&D on it's new chassis offering for the Dual Sport Manx model. The new frame will be a one piece frame that will allow larger passengers additional room for comfort and provide significant additional strength. The new car will be unveiled at the SSSS in September at the Orange County Fairgrounds. You can also come by the shop to get a sneak peak. Additionally, Orange County SandCars, LLC has acquired two additional businesses. They are Classic Wrench and RSM Automotive respectively. Classic Wrench is a complete Muscle Car and Hot Rod Shop and RSM Automotive is an ASE certified Automotive Repair shop. We are also forming a new division of Sandcar Repair for our international Operations. All of the above mentioned entities will form the Orange County Sandcar Automotive Group. This will allow us to provide the highest quality services and a true "onestop" offering for all of your needs.

Our website is [www.orangecountysandcar.com](http://www.orangecountysandcar.com) and we will be adding the new offerings to the site shortly, within 30 days.
